## Installing the Zotero Word Processor Plugins

word\_processor\_plugin\_installation.txt · Last modified: 2018/10/19 16:14 by dstillman

The [word processor plugins](#) are bundled with Zotero and should be installed automatically for each [supported word processor](#) on your computer when you first start Zotero.

You can reinstall the plugins later from the Cite → Word Processor Plugins pane of the Zotero preferences. If you're having trouble, see [Manually Installing the Zotero Word Processor Plugin](#) or [Word Processor Plugin Troubleshooting](#).

If you previously installed the Firefox versions of the word processor plugins into Zotero 5.0 or Zotero Standalone 4.0, you should uninstall them from Tools → Add-ons.
